## 1 Background

With funding provided by the **Austrian Development Agency (ADA)**, the **Austrian Association of Cities and Towns (AACT)** and **KDZ - Centre for Public Administration Research** are implementing the programme „*Capacity building in the countries of the Western Balkans and the Republic of Moldova*“. It will be implemented in the period 01.12.2014 - 30.11.2017, with the aim to strengthen the governance structures of the countries in the region and to prepare them for possible accession to the European Union, with focus on local and regional governments. The Programme is based on two relevant regional strategies, EU Strategy for the Danube Region (<http://www.danube-region.eu>) and SEE 2020 Strategy (<http://www.rcc.int/pages/62/south-east-europe-2020-strategy>). It will strengthen networking of towns and cities in the Danube region and Western Balkans but also assist fostering of governance for growth in line with the Europe 2020 Strategy. It is implemented through two measures: 1) Fund for know-how transfer actions for building administrative capacities in Danube region and Western Balkans (BACID) and 2) LOGON-Danube Local Governments Democracy Network. Both measures represent continuation of previous activities implemented by the AACT and KDZ, as well as synergies with actions implemented by other stakeholders such as NALAS (Network of Associations of Local Governments of South-East Europe)<sup>1</sup> and its donors GIZ and SDC, RCC, World Bank and others. While the first measure includes transfer on know-how from Austrian experts to regional counterparts in the field of local self-government, the second measure contributes to implementation of the Urban Platform for Democratic Governance (priority axis 10 of the Danube strategy) as well as to fulfillment of NALAS role in the implementation of SEE 2020 Strategy.

The first component, **BACID Fund** (building administrative capacity in the Danube region & Western Balkans) is designed as a grant scheme, which provides funding for know-how transfer actions implemented by Austrian institutions or experts for benefit of partners from targeted countries. It is built upon the experience of the Know-how Transfer Center (KTC) that was established in 1992 within the Austrian Association of Cities and Towns, in order to facilitate administrative cooperation of cities and municipalities in the new democracies of Central and Eastern Europe (CEE) with Austrian counterparts. It was funded by ADA and included about 2000 successfully completed projects. Since end of 2008, the KTC was managed by KDZ on behalf of the Association of Austrian Cities and Towns.

The KTC was an open funding facility and eligible institutions were applying continuously while there were funds available. In order to ensure higher efficiency of the spent funds and to decrease the administrative burden, it was decided to continue with the award of small grants through thematic calls for proposals: the application forms are simplified and the priority topics are selected for each Call. In the period of 36 months starting from December 2014, six Calls for proposals will be launched, covering the territory prescribed by the Programme

## 2 Objectives

BACID aims at **strengthening the capacities** of the authorities in the non-EU countries of the Western Balkans and Moldova in order to **introduce and implement the EU acquis relevant to local and regional governments**. Local governments represent the level of governance closest to citizens and services provided at municipal level should be in line with European standards, ensuring transparency, efficiency and effectiveness. Moreover, 2/3 of EU acquis is implemented at local and regional level. Therefore, strengthening municipal and regional administrations in the countries aspiring to the accession to the European Union, is an important element of European integration processes. Following previous experiences of new EU member countries, the peer-to-peer approach and transfer of know-how was identified as the most successful tool in gaining practical knowledge. In this way, the targeted countries will be efficiently supported to **build structures and cooperation and promote the process of democratization and regional development**.

## 3 Financial allocation

Six Calls for proposals will be implemented in the period of 3 years, with about **€ 30,000** available per Call. If the dedicated amount is not spent in one Call, the remaining funds will be transferred to the following Calls. ADA reserves the right to amend maximum amounts available per Call and per action, or not to award all available funds.

The maximum amount of grant available per action is **€ 6,000**.

The own **contribution** of applicant and partner/s is obligatory and may include in-kind contributions.

## 4 Eligibility criteria<sup>2</sup>

### 4.1 Eligibility of actors

#### 4.1.1. Applicants

The **Applicants** have to fulfill the following conditions:

- Be a legal or natural person registered in Austria

Additionally to the eliminatory criteria, the applications that don't reach the following minimum of points shall be rejected:

- Necessary total minimum of points is 30.
- Necessary minimum for the section *Relevance* is 8 points.
- Necessary minimum for the section *Effectiveness* is 6 points.
- Necessary minimum for the section *Efficiency* is 4 points.
- Necessary minimum for the section *Sustainability* is 8 points.

## 8 Contract award and implementation

Once the evaluation process is completed and the decision made, all applicants will be informed on the results. The selected applicants will receive the contracts and will have 2 weeks to return the signed contracts. If an applicant fails to meet the deadline without written justification, the next applicant from the ranking list will be offered the contract, or, ADA may decide to leave the non-allocated funds available for the other Calls for proposals.

Once the contracts are signed, the list of awarded actions will be published on the BACID website: [www.bacid.eu](http://www.bacid.eu).

The date of the beginning of the action shall be defined in the contracting phase, after which the activities may be implemented in the period of 6 months, including reporting.

## 9 Reporting and payment

No pre-financing will be given before the final report is submitted. In order to receive the payment, the Applicant has to submit the following:

- Completed report and financial statement using the provided templates
